What this symbol means

Common symbols in apps and on websites. Their labels tell you what they do in that place.

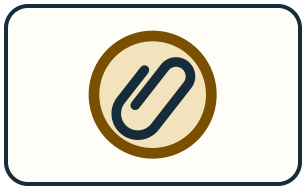

Three dots

More choices. Opens a menu. The dots can be in a row or a column.

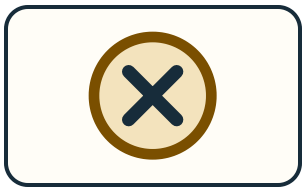

Eye

Beside a password: shows or hides what you typed. Show it only when others cannot see your screen.

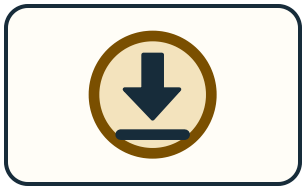

Paper clip

In a message: adds a file, such as a photo. Beside a received message: a file is attached.

X

At a corner: closes a window, tab or message. A label may instead say Remove or Clear. Save your work before closing.

Download arrow

A down arrow above a line often saves a copy to your computer. In a browser toolbar, it may open your downloads list.
